

Book Tile -1

Book Tile -2

After many years as a book designer, Lori Pease now enjoys making books from clay as well as creating tiled mosaics. When she began to work in clay, she was drawn to the process of exploring texture, form and color while creating all sorts of ceramic books, tiles, and tiled mosaics. Her books of various shapes and sizes can be hung on a wall, used a trivets, or gathered into piles like real ones. **Lori Pease Ceramics** is based in New England.
