### **Metolius Ridge Artisan Tile**

Since 1995, we've created one-of-a-kind, hand painted tile for people who love to surround themselves with art. Our idea of beauty stems from a love of painting and of the well made, hand crafted object. Metolius Ridge Tile is known for creating signature art pieces such as custom backsplashes, fireplace surrounds, and large wall murals that serve as a focal point and bring warmth and style to a space.
